- These embryos by the KM Cattle donor 046, and full sister to KM Broken Bow - the leading high volume seller at ABS Global. Sired by the \$350,000 HA Cowboy Up. What a mating, that has already proven its value at KM Cattle. August 1st fall calves who are full sibs to these embryos look phenomenal—Super base width, depth of body, and width over their top. Favorites of all who have seen them. They certainly showcase that "WOW factor". Donor dam, 046, is phenotypically the female version of Broken Bow; deep, heavy-muscle that carries deep into her lower quarter, long and attractive with excellent foot quality. She posted individual ultrasound of 8.96% IMF ratio 153, RE 13.4" ratio 124. Two ET sons will be featured in the 2018 KM Cattle Top-Cut Bull Sale.
- KM Broken Bow 002 is proving himself the old-fashioned way leading ABS in semen sales this past spring breeding season and has rapidly become one of the most popular bulls in the breed. His sons have consistently topped sales where he has been used including the recent \$190,000 Casino Bomber in CA to Vermillion Angus Ranch the \$50,000 Sitz Broken Bow 11076 to Genex and Hilltop Angus, the \$60,000 valued SydGen Blueprint to Justin Spickler and the increasingly popular Spring Cove Reno 4021 at ST Genetics. Broken Bow is also one of the most popular bulls in Australia due to his foot quality, muscle shape, and feed efficiency.
- Her 2nd generation Pathfinder® dam records BW 7@99; WW 7@108; YW 6@103.

- Grandam's Production: NR 4@104, YR 3@105. She posts REA 3@101, Rump Fat 3@84.
- This Blue Lady donor is the best KM Broken Bow daughter at KM Cattle. Truly a powerhouse from the ground up—super feet and legs, explosive in her muscle shape, very deep and soft made, very long bodied and extraordinary width over her top. Phenotypically perfect. Her pathfinder dam is a Connealy Stimulus daughter out of a Triple E Special Addition daughter who was our pick of the bred heifers at the 2011 Flag Ranch Dispersal Sale, Scottsbluff, NE. Her individual performance: BWR 86; WWR 107; YWR 106.
- SS Niagara 229, has proven himself to be one of Select Sires lead off bulls who will add base width and a super rib design to make attractive big bodied offspring, all while still bringing in breed leading growth. He has proven himself the old-fashioned way just as Broken Bow has done for ABS. This mating is combining two of the most balanced trait sires in the breed.
- Diablo Deluxe, has quickly hit the scene and became one of the more popular bulls in the breed. He has already and will continue to see heavy use in the breed's most elite programs this coming spring. He was the winner of the 2017 Cal Poly Bull Test. Deluxe is a super thick and deep made bull with an elite EPD profile, super docility, excellent feet and legs, and backed by multiple generations of high performing real-world cattle.
